# Filter Screen, stainless steel

For use with FBDR series conduit dome drains

**T&B® Fittings**

Filter screen for use in FBDR series dome drains.

**3-Part Specification:**  
**Tools and Calculators**

## Features:

- Woven wire design to screen debris from entering body of FBDR series dome drains
- Two piece steel construction can be field-installed inside of a FBDR series dome drain of either ½" or ¾" trade size
- When installed, the filter screen is entirely inside of the electrical enclosure in which the dome drain is installed

Note: Filter screen does not interfere with drainage path/slots in FBDR series dome drains.

## Applications:

- For use with FBDR series dome drains
- Food and beverage facilities

## Material / Finishes:

- Stainless Steel (corrosion resistant)
