

PRODUCT SPECIFICATION SHEET
I T C
200A Dead-break Bail Assembly
150TB2
Application:

The ELASTIMOLD 150TB-2 bailing assembly kit consists of a modified hold-down bail and a stainless steel flange for securing an ELASTIMOLD dead-end plug K150DP to an ELASTIMOLD tee splice K150T. This assembly assures that the dead-end plug will not be dislodged from the tee splice.

Ordering Instruction:

To order, please specify **150TB-2**.

The 150TB1 Bail Assembly kit contains the following:

- | | |
|------------------------------|---------|
| 1 – Bail assembly kit | 150TB2 |
